

# Task Force on Emission Inventories and Projections

## Future Work & Strategy

TFEIP co-chairs: Chris Dore, Martin Adams and Kristina Saarinen

Support & Funding from:

# 1. Standing Items

- Support/co-ordination
- Annual Meeting
- Communications
- EECCA outreach

**1. Review of reporting templates**

**2. Guidebook update in 2018-2019**

**TFEIP**

## 2. PRG Priorities and Workplan I

### PM Condensables & semi-volatiles

- Confirm **TFEIP** proposal
- **TFMM** leading the technical work

### Supporting Ratification of Gothenburg

- Support for **ECCA countries** (and others)
  - completeness, gridded data, projections etc.

## 2. PRG Priorities and Workplan II

### **Strengthen Links with Other Groups**

- MSC-W, MSC-E (verification studies),
- TFIAM (projections)
- UNFCCC, CCAC (BC), Arctic Council, Stockholm, Minimata...

### **Uncertainties in inventories**

- New methods need to be developed

# 3. EMEP/EEA Guidebook Update

## Update in 2018 - 2019

- No EC project this time
- Funding from other sources

## Funding Model

Current set up **does not work well.**

Guidebook is an **“anomaly”** within EMEP.

## 4. Strategy and Recap I

**Standing Items – OK**

**No Tier1 for Key Sources – via review process**

**Guidebook update – some funding, need a new funding model, long-term planning.**

**Condensables – re-confirm proposal from TFEIP, support TFMM**

## 4. Strategy and Recap II

**Targeted support** –MSC-W/E feedback, then **plan & fund** review/support activities

**Strengthening Links** – challenging, but **improve comms co-ordination?**

**Uncertainties** – Research needed to develop a new approach.
